

MX-B356W/MX-B456W

A4 Mono MFPs

www.sharp.co.uk

SHARP
Be Original.

Security meets flexibility.

Ensuring that your information is properly protected shouldn't compromise your ability to quickly use and share it.

With Sharp's new MX-B356W/MX-B456W A4 mono Multifunction Printers (MFPs) you can enjoy the best of both worlds. They are designed to keep your valuable business information secure, but also enable flexible workflows – providing exceptional ease-of-use, simple connectivity and effortless mobility to optimise workforce efficiency. These capabilities, along with their proven reliability and value, led to Sharp receiving the prestigious Buyers Lab Copier MFP Line of the Year Award.

Their compact design and extensive feature set also mean they offer the convenience of a desktop machine combined with the enterprise-class performance of an A3 MFP. It makes them the ideal choice for workgroups in small & medium businesses (SMBs) or for larger organisations who want an easy way to increase productivity in any busy office environment.

Get more done – faster

With output speeds of up to 45ppm you get an instant productivity boost. Especially as the new Adobe Embedded Printer Engine (AEPE) helps to deliver up to 80% faster printing for mobile, cloud and USB. You can also save even more time thanks to their flexible paper capacity, which can be expanded from 550 up to 2,350 sheets. So there's less downtime and minimum user intervention.

And it's not just printing that's faster. You can scan and digitise documents in duplex at speeds of up to 110 ipm with the MX-B456W. They will also scan up to 25 business cards in one go, or both sides of up to four cards. This fast document digitisation is perfect for busy environments, like reception areas, where time is short.

Why do things the hard way? Sharp's MFPs are designed to make your life much easier

More productive by design

These MFPs simplify everyday printing, copying and scanning tasks – unlocking efficiency savings and more flexible ways of working.

A large 500GB onboard Hard Disk Drive (HDD) can store much larger and more complex documents, and everything can be quickly accessed using an efficient Document Filing system. But for the ultimate convenience Sharp's Office Direct Print technology lets you print whatever you want without even logging into your PC. Just walk up to your MFP, insert a USB memory stick containing images, Adobe PDFs or Microsoft® Office files and print off whatever you want. Or you can quickly scan and save documents straight to the USB stick.

Insert your USB and start printing or scanning.

You can even avoid the inconvenience of retyping essential information if you only have a hard copy. Our Optical Character Recognition feature lets you scan and convert documents into fully searchable PDFs and editable Microsoft® Office files (Word, PowerPoint and Excel).

Sharp's Optimised Software Solutions also help you optimise the way your work. They are designed to reduce printing and copying costs, simplify how you store and share documents, ensure flexible access on the move and streamline workflows and day-to-day management.

As easy as you like

It can be really frustrating when you're in a hurry and have to waste time struggling with complex technology or convoluted settings. With these MFPs you don't! Their intuitive operation means that even the most complex processes are made simple - Sharp also received the Buyers Lab 'Ease of Use' PaceSetter award for powerful print and scan features and easy to use interface of their devices.

They have a large 7-inch colour touchscreen LCD that you can tilt for easy viewing. Easy Mode also ensures that all of the everyday functions, like 'Scan' and 'Copy', are displayed in large, immediately accessible icons. Or, if there are other functions that are used a lot, you can simply drag and drop their icons onto your personal home screen for faster access.

Users can customise the home screen for more efficient working.

Keep your data safer.

The loss of business information can have a devastating impact on productivity and profitability. So stringent protection is vital.

Sharp's MX-B356W/MX-B456W MFPs include the most advanced security and access controls. They ensure that your valuable information and intellectual property are robustly protected, avoiding any disruption to your business.

Their comprehensive layers of security provide effective protection for both your network and your data:

- **Self-healing** – a master copy of the system's operational settings are stored locally, so they can be safely recovered if there is ever a problem. It ensures that you can continue working, while also protecting your valuable information and intellectual property.
- **Instant validation** – all incoming and outgoing data communication, including OSA and email, is checked using SSL Certificate Validation to prevent any unauthorised or malicious access to your information.
- **Controlled access** – attempts to access the MFP are actively monitored and permission is only granted if the applications and operating firmware are on an approved whitelist. Any unrecognised systems are instantly blocked, logged and reported.
- **Certified security** – the embedded data security* meets the very latest security standards of government and military offices. By conforming to the Protection Profile for Hardcopy Devices (HCD-PP v1.0) the MFPs can handle even the most sensitive data.

As a result, you can enjoy complete peace of mind knowing that your business and its data are proactively protected by the highest level of security.

* Data security kit needed.

Work without limits.

Being able to work anytime and anywhere is now essential to boosting productivity and profitability.

Sharp's new MFPs provide effortless connectivity that enables you to share information quickly and securely, using mobile and cloud technologies. So you can achieve much more when you are on the move and rapidly exploit new opportunities to help grow your business.

Effortless mobility

Built-in wireless connectivity allows any WiFi enabled laptop, tablet or smartphone to directly connect to the MFP without a wireless LAN. Using their NFC card reader and QR Code® you can link your mobile device to the MFP in seconds without any complex configuration, so you can print and scan almost instantly. You can also print from any app that supports Google Cloud Print™ or the Android™ printing framework, or use Airprint™ to quickly print web pages, photos, email and more from iOS and OS X devices without any set-up.

For even greater flexibility, their optional Dual Network Connectivity means you can share the same MFP over two different networks, one of which could be wireless, even if they have different network security settings or usage restrictions.

QR code icon can be easily set up on the home screen.

Easier and safer data access

Accessing and printing information that's stored in public cloud services is much easier with a Single Sign On (SSO)*¹. There's no need to remember separate usernames and passwords. Just log in once and you can securely print and store information using Google Drive™, OneDrive® for Business, SharePoint® Online, Box, Dropbox and Cloud Portal Office. There's also a Gmail connector for scanning to email and Exchange Online (MS 365 email).

And there's less risk that important or sensitive documents will be left out in the open. With the Print Release feature you can send a job to print and then, whenever you are ready, just walk over to the most convenient printer, log on and print off your information.

Directly connect to public cloud services and Cloud Portal Office.

Simpler to manage

Just like our larger A3 MFPs, printing or receiving information directly from your business systems and cloud-based applications is made much simpler with Sharp OSA® (Open System Architecture)*².

And the new Application Centre Portal also provides cloud connector apps and software updates that enable agile updating and make the MFP more adaptable.

*¹ Requires optional MX-AMX2.

*² Optional for MX-B356W.

Configurations

Note: When placing the MFP on the floor, Sharp recommends placing it on an MX-DS22N or MX-DS23N. If you are attaching two or three MX-CS14N paper feed units, an MX-DS23N is required.

Options

MX-PF10

Barcode Font Kit

MX-FWX1

Internet Fax Expansion Kit

MX-AMX1

Application Integration Module

MX-FR61U*

Data Security Kit

* 878 mm when finisher tray and multi bypass tray are extended.

MX-B456W shown with optional equipment.

* Available at a later date.

Specifications

General

Engine speed (ppm/cpm) (Max)	A4 ^{*1}
MX-B356W	35
MX-B456W	45
Control panel display	7.0-inch colour LCD touchscreen
Paper size (Min – Max)	A6 – A4
Paper weight (g/m ²)	
Drawer 1	60 - 105
Drawers 2 – 5	60 - 220
Multi-bypass	60 - 220
Paper capacity (Std – Max)	
Sheets	550 - 2,350
Drawers	1 - 4 (plus bypass tray)
Warm-up time ^{*2, *3} (seconds)	20
Memory (GB)	
Copier/Printer (shared)	5
HDD ^{*4}	500
Power requirements	Rated local AC voltage ±10%, 50/60 Hz
Power consumption (kW) (Max)	1.84 (220 to 240V)
Dimensions (mm) (W x D x H) ^{*5}	
MX-B356W	492 x 517 ^{*6} x 588
MX-B456W	492 x 517 ^{*6} x 638
Weight (kg) (approx.)	
MX-B356W	31
MX-B456W	33

Copier

Original paper size (Max)	A4
First copy time ^{*7} (seconds)	B/W
MX-B356W	5.3
MX-B456W	3.7
Continuous copies (Max)	9,999
Print resolution (dpi)	
Scan	600 x 600, 600 x 400
Gradation levels	256
Zoom range (%)	25 – 400, (25 – 200 using RSPF/DSPF) in 1% increments
Preset copy ratios (Metric)	10 ratios (5R/5E)

Network Printer

Resolution (dpi)	600 x 600, 9600 (equivalent) x 600
Interface	USB 2.0, 10Base-T/100Base-TX/1000Base-T
Supported OS	2 Windows 8.1, 10. Windows Server 2012, 2012R2, 2016, 2019. Mac OS X 10.9, 10.10, 10.11, 10.12, 10.13, 10.14, 10.15
Network protocols	TCP / IP, WEP, WPA / WPA2-mixed PSK, WPA-WPA2-mixed EAP, WPA PSK, WPA2 EAP
Printing protocols	LPR, Raw TCP (port 9100), POP3 (email printing), HTTP, FTP for downloading print files, IPP, SMB, WSD
PDL (Std)	Standard: PCL 6 emulation, Genuine Adobe® PostScript®3
Available fonts	80 fonts for PCL, 139 fonts for Adobe PostScript 3™

Network Scanner

Scan method	Push scan (via control panel) Pull scan (TWAIN-compliant application)	
Scan speed ^{*8} (ipm)	One-sided	Two-sided
MX-B356W	70	110
MX-B456W	40	18
Resolution (dpi) (Max)		
Push scan	100, 150, 200, 300, 400, 600	
Pull scan	75, 100, 150, 200, 300, 400, 600	
	50 to 9,600 dpi via user setting	
File formats	TIFF, PDF, PDF/A-1a ^{*9} , PDF/A-1b, encrypted PDF, compact PDF ^{*10, *11} , JPEG ^{*10} , XPS, searchable PDF ^{*9} , OOXML ^{*9} (docx, xlsx, pptx), text (TXT) ^{*9} , rich text (RTF) ^{*9}	
Scan destinations	Scan to e-mail, desktop ^{*12} , FTP server, network folder (SMB), USB memory	

Document Filing

Document filing capacity ^{*13}	Pages	Files
Main & custom folders	20,000	3,000
Quick file folder	10,000	1,000
Stored jobs ^{*14}	Copy, print, scan, fax transmission	
Storage folders	Quick file folder, main folder, custom folder (max. 1,000)	
Confidential storage	Password protection (for main & custom folders)	

Fax

Compression method	MH/MR/MMR/JBIG
Communication protocol	Super G3 / G3
Transmission time ^{*15} (seconds)	3
Modem speed (bps)	33,600 – 2,400 with automatic fallback
Recording width	A4 – A5
Memory (GB)	1 (built-in)

Wireless LAN

Compliant regulation	IEEE802.11n/g/b
Access mode	Infrastructure mode, Software AP mode
Security	WEP, WPA/WPA2-mixed PSK, WPA/WPA2-mixed EAP ^{*16} , WPA2 PSK, WPA2 EAP ^{*16}

Toner Yields

MX-356W/456W	Toner	
Black (pages at 5% coverage)	MXB45GT	MXB35GT
	30,000	12,000

^{*1} Short-edge feeding. ^{*2} In a standard measurement environment. May vary depending on operating conditions and environment. ^{*3} When starting the MFP via the power button. 58 sec. when starting via the main power switch. ^{*4} HDD capacity depends on procurement and sourcing status. ^{*5} Including adjusters and protuberances ^{*6} 588 mm (23 1/2") when the control panel is tilted at the flattest horizontal angle. ^{*7} Short-edge feeding of A4 sheets from 1st paper tray, using document glass, without Auto Colour Selection and Auto Colour mode, MFP in fully ready condition. May vary depending on operating conditions and environment. ^{*8} Scan speed will vary depending on the type of document and the scan settings. Based on Sharp's A4 standard chart, using document feeder, short-edge feeding, and factory default settings (and one-sided scanning for the MX-B356W). ^{*9} MX-B356W requires optional MX-EB20. ^{*10} Colour/greyscale only. ^{*11} MX-B356W requires optional MX-EB19. ^{*12} Requires Network Scanner Tool Lite which can be downloaded from <https://global.sharp> ^{*13} Storage capacity will vary depending on the type of document and the scan settings. ^{*14} Some features require optional equipment. ^{*15} Based on Sharp's standard chart with approx. 700 characters (A4 or 8 1/2" x 11" short-edge feeding) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression. ^{*16} Not applicable to Software AP mode.
